

For Immediate Release

2006 CORRECT CRAFT NAUTIQUE SV-211

ORLANDO, FL (August 22, 2005) —Correct Craft, Inc. announces the 2006 Nautique® SV-211, the first V-Drive to be a USA Water Ski Class C tournament-approved towboat. 100% Crossover. No Compromise.

Built to do it all! Dad wants a soft wake so he can ski a set on the slalom course. Junior wants it rampy so he can go big on his front flip. The secret lies in a unique feature called the Hydro-Gate.™ This clever *SportShift™* system allows you change the wake signature of the SV-211, so you can adjust the size of the wake on the fly right from the cockpit. It's the ultimate in crossover technology, with no compromises, and no competition. Enjoy features such as a monstrous 58qt. cooler for your refreshments, seating up to nine and standard on all packages, stainless steel grab rails, cup holders and 12-volt receptacles for your convenience.

Upgrade to the Air Nautique SV-211 Team Edition that has everything you need to ski, wakeboard, wake surf, kneeboard, tube and stay on the water all day in comfort. When it's time to switch from skiing to wakeboarding, hook onto the patented Flight Control Tower®, add up to 730 pounds of ballast and its big air time.

Celebrating over 80 years of excellence in the marine industry, Correct Craft is a family owned manufacturer of world-famous waterski, wakeboard, crossover and family recreational boats. Correct Craft, Inc., a Florida-based company, is known for leading the industry in technology and innovative hull designs.
