

For Immediate Release

2006 CORRECT CRAFT SUPER AIR NAUTIQUE 220

ORLANDO, FL (August 22, 2005) —Correct Craft, Inc. announces the all new 2006 Super Air Nautique™ 220.

Once again, Correct Craft revolutionized wakeboarding. Hardcore in every detail, the 220 creates a long, firm, rampy wake that supports even the most aggressive riders. The Hydro-Gate which is standard on the Super Air Nautique 220 can adjust the entire body of the boat so you can control the wake's shape, angle and lip. This boat has unique features such as eleven stainless steel cup holders, seats with transforming lean-backs to provide up to seven comfortable aft-facing seats and accommodates up to twelve people. A new hull and deck design gives you the space and luxury needed to be on the water all day long.

Attention to detail is everywhere. The tower has beefier pipes, more head room and lots of bling. New and innovative ideas in storage can only be described as cavernous, while a new hull and deck design gives the 220 more interior space than a competitors 24-footer. Fit and finish are impeccable. Even the under side of the hatches and lids are finished out with in-molded Nautique logos. A big, removable cargo net over the aft sun pad creates additional storage for all your extra boards. Chamfered ballast tanks which hold 950 pounds of ballast and also provides convenient board storage. A stern lifting ring is stealthily hidden. The list goes on and on.

Get in; get behind the incredible Super Air Nautique 220. It's nothing like any other wakeboard boat you have been in before. The Super Air 220 Team Edition comes standard with PerfectPass®, keyless ignition, 320 watt amp, a 10 inch Polk/MOMO® subwoofer, six Polk/MOMO speakers with directional tweeters, a Clarion® digital stereo remote control, Flight Control Tower® and spinner board racks.

Celebrating over 80 years of excellence in the marine industry, Correct Craft is a family owned manufacturer of world-famous wakeboard, waterski, crossover and family recreational boats. Correct Craft, Inc., a Florida-based company, is known for leading the industry in technology and innovative hull designs.
